

Take care of your business

NEW

Hectorra Van

FOR TRANSPORTERS AND VANS

The **new Matador Hectorra Van** is a top balanced summer product for light commercial vehicles, which meets every challenge. Its **high braking performance** and **low rolling resistance** make your business safe and effective.

- ▶ **High comfort** – generates very low noise
- ▶ **High braking performance** – makes driving safe
- ▶ **Low rolling resistance and wear** – ensure long-life tyre and high efficiency

Hectorra Van

FOR TRANSPORTERS AND VANS

Technical Highlights

High comfort

Generates very low noise thanks to the balanced tread pattern and optimized sipe distribution for a pleasant and comfortable drive experience.

High braking performance

Makes driving safe and stable due to the innovative hexagonal crown in its pattern design. An optimized contact area between the tread and the road ensures the braking distances on dry roads very short.

Low rolling resistance and wear

Resists irregular wear and maintains its optimized properties for longer. The new tread compound generation delivers enhanced rolling resistance and wear performance.
