

Ready for the challenge

NEW

F HR 5

FOR LONG-DISTANCE AND REGIONAL TRANSPORT
- STEER AXLE

Matador introduces a new generation of truck tyres for **steer axles** - F HR 5, designed to deliver **high mileage potential, precise handling** and **reliable performance** in long-distance and regional transport.

The **optimised compound** and **modern construction** provide **low rolling resistance** and **durability with retreadability**, helping to **reduce overall operating costs** throughout the tyre's service life.

- ▶ High mileage potential
- ▶ Low rolling resistance
- ▶ Precise handling
- ▶ Durability & retreadability

F HR5 5

FOR LONG-DISTANCE AND REGIONAL TRANSPORT – STEER AXLE

Technology Highlights

- **High mileage potential:** Optimised tread design and a new compound deliver high mileage potential with consistent performance throughout the tyre's lifetime.
- **Low rolling resistance:** An advanced tread compound reduces energy loss, supporting fuel efficiency and lower operating costs.
- **Precise handling:** The circumferential rib pattern ensures precise steering response and excellent driving stability on motorways and regional roads.
- **Durability & retreadability:** Robust construction and a high-quality casing design ensure long durability and enable safe, efficient retreading.

Pattern Features

Circumferential Rib Pattern

Excellent driving stability and safe handling with low noise for best driving comfort.

Straight Shoulder Grooves

Asymmetric profile with WSS2 technology for maximum durability and crack resistance.

3D Center Grooves

Minimized stone trapping and quick ejection for increased traction and longevity.

2D Pocket Sipes

Improved grip and safety on wet and wintry roads.

TYRE SIZES
